We are very glad to let you know that two of our students, Pawan Dahal and Anita Shrestha have passed the School Leaving Certificate (S.L.C) examination with distinction marks scoring 81% and 80.12% respectively.

This was the first ever batch from Mitrata home and we are very proud of them. Pawan Daha came to Mitrata home in 2004. He wants to study science as his major subject and aims to be an IT consultant in future.

Anita Shrestha came to Mitrata Home in 2002. She is a very diligent student and wants to pursue her career in nursing.

We are thankful for our donors and sponsors for their support towards our children and home. We hope to receive continuous support.

We can never forget the contribution of staffs and board members towards the children. They helped them a lot in improving their overall performances. The first batch from Mitrata home set an example for other children who will be appearing the examination in the future. All of us here from Mitrata family would like to congratulate both of the students for their success.
